ROAD MAP**PURPOSE**

The purpose of the Prequalified Pool of Vendor is to expedite selection of a bidder to purchase and delivery of Group A: Construction Chemicals and Related Products and Group B: Industrial Maintenance, Textured, Waterproof, and Protective Coatings on an as-needed basis.

ORDER PROCESSING

Individual orders will be processed using pricing information obtained from participating bidders. Orders will be awarded to the bidder offering the lowest pricing per item(s) in that order.

In accordance with Section 2, Paragraph 2.2 of the contract a Small Business Enterprise (SBE) bid preference applies to all purchases under this contract where permitted by funding source.

The local preference applies to this contract where permitted by funding source. The local preference should be applied in accordance with Section 2-8.5 of the Miami-Dade County Code at the time using departments request quotations from the pre-qualified bidders.

Where it is determined that there is a tie between two or more bidders for the award of an order, a determination of low bidder will be made in accordance with County ordinances and policies, Section 2-8.5 procedure to provide preference to local business in county contracts.

Applying Bid, Local and Locally Headquartered Preference to Quotes:

Only one preference shall be awarded per bidder per quote or per item. Bid preferences shall be given to bidders that are identified herein as certified SBE/Micro. The bid preference shall be calculated and subtracted from the total quote price or item. This difference shall be used in evaluating the quote. The bid preference is used only to calculate an amount to be used in evaluating the quote and does not affect the quote price. **EXAMPLE:** Quote Total Price \$1,000 x 10% = \$100.00 - \$1,000.00 = \$900.00.

Whenever a quote contains both, Bid Preference (SBE/Micro) and Local Preference, departments must apply the bid preference first. Once the bid preference is applied and department determine that the apparent low bidder is a non-local firm and the second lower bidder is a local firm which prices are within 10% of the low bidder, department must proceed to apply local preference and obtain the "Best and Final" in accordance with Section 2-8.5 of the Miami-Dade County Code.

For purposes of the solicitation, an order involves one or more items, which are part of a solicitation, and is accompanied by quotes from participating bidders contacted for that solicitation. The lowest bidder within the contacted group will be awarded the order. If one or more items on an order are determined to be unavailable from a bidder who has offered the best and lowest pricing for that order, the entire order may then be placed with the bidder with the best pricing who is able to completely fill the order. An item will be determined to be unavailable if a bidder is unable to deliver that item within the period specified in the department Request for Quote Form. The award of the order to one bidder does not preclude the ability of the remaining prequalified bidders from submitting offers for other orders as requested by the County departments.

QUOTE PROCEDURES

All bidders per manufacturer line will be contacted for quotes on an as-needed basis. Each quotation request will include the following: quantity and items to be purchased; due date, time and location for delivery of supplies; due date and time for quotation submittal and any other special instructions.

Pre-qualified Bidders will be solicited for price and availability of items as needed. A Request for Quote will be facsimile (faxed) and/or electronic mail (e-mail) to the approved bidders who indicated on the pre-qualification form the manufacturers' items they can supply. Faxed and/or e-mail quotes must be returned back within four (4) hours of receiving the request from the County. For quotes requested between 3:00 p.m. and 4:00 p.m. EST, responses are due by 9:00 a.m. EST of the next day. If required, the County will note special shipping requirements. In those cases, the prices quoted by the bidders shall be inclusive of any additional shipping cost. It will be the County department's prerogative to contact all the pre-qualified bidders from the manufacturers' item they can

supply, use a rotating system to request quotations from a number of pre-qualified bidders, or to request quotations from the pre-qualified bidders for a specific brand/make within a manufacturer line. All responded bidder(s) shall be notified of the award. Deliveries shall be invoiced against existing blanket purchase orders.

No quotes are necessary for purchases under \$500.00. *During emergency situations, geographic location and/or delivery requirements may determine award.*

BID TABULATION

User Department shall tally all responsive, non-responsive bidders, the low bidder and higher than low bidders. Upon request by the bidder or bidders, the department should provide the information.

PRODUCT RETURNS

The County may elect to return to a vendor a purchased item within thirty (30) business days of receipt and acceptance of that item by the County. Items will be returned in their original cartons, and packing material with all original documentation. The vendor may supply a pre-authorized return receipt for returned items.

If an item is returned because it does not meet performance or functional specifications as promised by the product's manufacturer, then all return costs will be borne by the vendor. The department may return items for reasons other than those mentioned above. In these cases, the department will determine a reasonable re-stocking fee. This restocking fee shall not exceed five percent (5%) of the cost of the item being returned.
